

FOUNDATION PRIMER

Silicone and antioxidant formula prepares skin for foundation

PRODUCT HIGHLIGHTS

- Lightweight, oil-free silicone formula
- Lengthens wear and prevents fading
- Fills in fine lines and wrinkles
- Over time, aids in evening out skin tone
- Antioxidants, vitamins A and E, green tea and grape seed extracts
- Works with any wet or dry foundation
- Will not irritate sensitive skin
- Mixes with heavy foundations to soften coverage
- Minimizes large pores

Since its release, Cinema Secrets Ultimate Foundation Primer has become one of our most popular products. Medical-grade silicone that is fortified with antioxidants, vitamins A, vitamin E, skin-enriching green tea and grape seed extracts create a weightless, oil-free, non-drying primer gentle enough to use on all skin types.

Just a touch fills in fine lines and wrinkles to aid foundation application, prevents collagen breakdown, minimizes large pores and creates a silky smooth finish for flawless foundation application.

To use, apply with a sponge or brush to a clean face and let dry for one to two minute before applying wet or dry foundation. When using with sunscreen, let sunscreen set for two minutes before applying primer. Can also be mixed with Cinema Secrets Ultimate Foundation to thin the makeup and provide lighter coverage.
