

# HOLLYWOOD LIGHTS

Iridescent powders and micro-pulverized polyflakes for superior sparkle

## PRODUCT HIGHLIGHTS

- Fifteen brilliantly iridescent shimmer powders
- Eight vibrant, sparkling hues of micropulverized polyflake Glitz
- Shimmer/Glitz mixtures in black and white
- Use dry on eyes, face and body for shimmer
- Pearlize lip color
- Add to face powder for shimmer
- Use with Hollywood Lights Tacky for glitter or shimmer liner

Cinema Secrets Hollywood Lights are a collection of loose, iridescent mineral powders that can be used many ways for shimmering and glittering effects. Hollywood Lights Glitz powders contain highly reflective micro-pulverized polyflake for superior sparkle.

Cinema Secrets Hollywood Lights are either iridescent shimmer powders or glitter powders that can be used all over the body. Cinema Secrets Hollywood Lights with Glitz colors (HL016 Black Diamond and HL017 White Ice) are mixtures of Hollywood Lights Shimmer powder and Glitz polyflake.

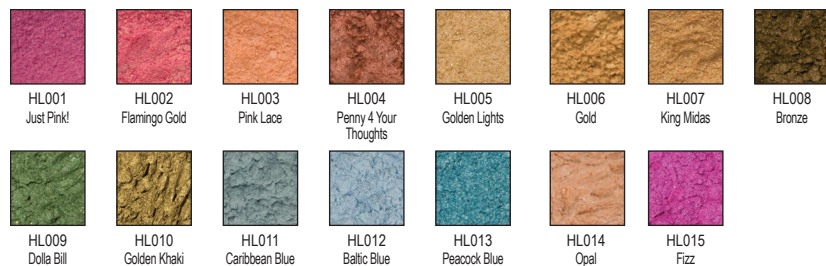

Hollywood Lights are incredibly versatile. Apply with clear lip gloss for a glossy sparkle and shine. Adhere with Hollywood Lights Tacky for intricate fashion and fantasy makeups. Mix with Hollywood Lights Tacky for attention-grabbing eyeliner. Blend with lip color to create highly iridescent glitter or pearlized effects. Brush on as eye shadow for overall shimmer or sparkle. Add to Ultralucet Face Powder for shimmering body effects. The uses are as endless as the imagination!

## Use and Tips

Dust on the body with a powder brush for all-over glow. Use as an attention-grabbing eye shadow for a night out or costume makeup. Press Glitz into cream colors or lipstick for a show stopping look. Clear base and cap make color identification easy. Remove with soap and water or any makeup remover.

Note: Colors may not be depicted accurately because of computer, monitor, and printer limitations and variances.

# HOLLYWOOD LIGHTS TACKY

- Light, water-based adhesive
- Safe for use around eyes
- Adheres any fashion-safe glitter to skin
- Mix with Hollywood Lights Shimmers to enhance color
- Use with Hollywood Lights Glitz for brilliant glitter lining

Hollywood Lights Tacky liquefies Hollywood Lights powders and creates long-lasting adhesion and more vibrant color. The clear liquid is easily applied with the built-in brush and allows for precise application of the highly reflective Glitz polyflake—great for eye-lining, intricate designs, and outlining.
